

INTRODUCTION

“Minatures” Book 1 is a collection of four easy pieces written for either concert or non-pedal harp. The HARP I part can be played as a solo piece, while HARP II is an optional extra which can be added if required: this is written at an easier level than HARP I so that the student can progress from II to I with the aid of the teacher.

The tempo markings are just a guide, and since these pieces are written for enjoyment, the student should feel comfortable with the tempi.

I dedicate these pieces to my four lovely children – Lisa, Mark, Jo and David who once were “miniatures”!
